Art Unit: 1742

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-19 and 29-35, drawn to a metal powder producing process, classified in class 75, subclass 338.
- II. Claims 20-28, drawn to a shotshell producing process, classified in class 102, subclass 448+.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are prima facie independent and distinct inventions. The steps as recited in the Group I process (atomizing, annealing, cooling, separating by size) are completely distinct from and are not even in the same general category of knowledge as the steps of loading pellets into a shotshell comprising a hull, a propellant, a primer, and wadding as recited in the Group II process. Further, the Group I process would be useful for purposes completely distinct from anything contemplated by the Group II process, such as in making a reinforcement material for cermet composites.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. A telephone call was made to William Slate, attorney of record, on September 25, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Wyszomierski whose telephone number is (703) 308-2531. The examiner can normally be reached on Monday thru Friday from 8:00 a.m. to 4:30 p.m. Eastern time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King, can be reached on (703) 308-1146. The fax phone number for this Group is (703) 872-9310. The Right fax number for this examiner is (703) 872-9039. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0661.
